

Ecological Services

MBS Environmental has extensive experience and knowledge in conducting Flora and Fauna surveys and management for Australian mining, pipeline and construction activities. MBS ecological personnel have experience in ecological surveys across most biogeographical regions of WA. Ecological expertise at MBS includes:

- **Desktop** flora and fauna assessments.
- **Targeted searches** for Conservation Significant flora and fauna.
- **Level 1** (reconnaissance) Surveys for flora and vegetation.
- **Level 1** (reconnaissance) surveys for fauna and habitat.
- **Fauna clearance** (pipeline trenches) and relocation.
- **Stygofauna** surveys.
- Liaison with and **management of specialist** ecological sub-consultants.
- Compilation of survey results and recommendations for management.
- Flora and fauna **Environmental Impact Assessment**.
- **Pre-construction surveys** for service corridors according to Environmental Impact Assessment documentation.
- Rehabilitation planning and **monitoring**.
- **Groundwater Dependent Ecosystem (GDE)** Assessments.
- Development of flora and fauna **Management Plans**.
- Undertaking **Ecological Risk Assessments**.
