

# Environmental Support Services

MBS Environmental has a team of experienced staff from junior through to senior employees who are available to assist during planned or unplanned changes in operations, ensuring operational continuity. MBS site support can enable:

- › Relationship building with corporate and senior operational management.
- › Continuity of environmental history and knowledge.
- › Specialist environmental and strategic advice.
- › Environmental monitoring and database maintenance.
- › Assistance with internal and external inspections and audits.
- › Preparation of management plans, procedures and reports.
- › Preparation of State/Territory and Federal approval documentation.
- › Liaison with regulators and other key stakeholders.
