

Linear Infrastructure Services

MBS Environmental has supported the development of hundreds of kilometres of pipelines and roads.

MBS Environmental provides a suite of services to aid in the development of linear infrastructure, including:

- Route selection.
- Baseline environmental studies.
- Development and submission of approval documents.
- Development of environmental management plans.
- Risk assessment.
- Regulatory liaison and stakeholder engagement
- Environmental management support, including trench inspections and fauna rescue.

MBS Environmental has experience in:

- Baseline and pre-clearing surveys.
- Approvals under the Environmental Protection Act 1986, *Petroleum Pipelines Act 1969*, *Petroleum and Geothermal Energy Resources Act 1967*, and *Mining Act 1978*.
- Project environmental management.
- Construction corridor rehabilitation.
